

2023-2024 ANNUAL MILITARY EQUIPMENT REPORT

SANTA CLARA COUNTY
OFFICE OF THE SHERIFF

COUNTYSHERIFF.SCCGOV.ORG

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

SUMMARY

This annual report provides the Santa Clara County Board of Supervisors a comprehensive overview of Santa Clara County Sheriff's Office military equipment and usage. The format of this report was crafted in a manner that conforms to California Government Code section 7072(a) to include the following information for the reporting period of April 1, 2023 - March 31, 2024:

Statistics/Uses: During this reporting period, the Law Enforcement Bureau responded to approximately 119,191 incidents through a combination of calls for service by the community and proactive law enforcement. There were fifty-seven (57) uses or deployments across all approved equipment categories during this reporting period. The Custody Bureau had seventy-eight (78) uses across all approved equipment categories in both facilities combined during this reporting period. These uses should be considered with staff running a 24/7 operation with an average daily population of approximately 2,900 incarcerated individuals and a total of 32,731 custody bookings during this reporting period. The Sheriff's Office reserve deputies employed by the Stanford Department of Public Safety did not have any deployments across all approved categories of military equipment.

Audits/Transparency: All uses of this equipment were audited to include report and body worn camera reviews to ensure adherence to policy. Corrective action was taken on one (1) incident for improper deployment distance of a chemical agent and two (2) uses are currently being investigated by Internal Affairs for policy violations. The Internal Affairs cases will be shared with OCLEM for independent review in accordance with the information sharing agreement.

Analysis: While the year-to-year comparison suggests a slight uptick in the military equipment usage for both the Law Enforcement and Custody Bureaus, several factors must be considered to include last year's report captured data starting May 1, 2022, as well as an increase of around 5,000 calls for law enforcement services. The military equipment usage by Sheriff's Office staff was still low in contrast to the number of incidents in which Sheriff's Office staff responded. Of note, the usage of Clear-Out in the Custody setting was down from 17 to 12 uses during this reporting period. This low usage rate is a direct reflection of the judiciousness of use as well as the incident intensity reduction efforts by staff. It is the position of the Sheriff's Office that equipment defined under AB 481 is vital in the resolution of critical incidents and violent confrontations to keep the public and our staff safe. We are seeking approval for several additional items to better resolve critical incidents and gain voluntary compliance of subjects. The additional equipment will improve the likelihood incidents will be resolved without the use of deadly force. The Sheriff's Office remains committed to transparent reporting and review as well as judicious and responsible use of the equipment.

				for fentanyl and methamphetamine. No explosive material was located among the examined items. The DEA was contacted and collected the suspected drugs.		
2	10/15/2023	Assist to SERT for Barricaded Subject	No	<p>Sheriff's Office personnel responded to a reported assault with a deadly weapon, domestic violence, and criminal threats incident. The victim was able to escape from the suspect, who had threatened her with a knife, and called for help. The suspect barricaded himself in the attached garage of the residence. SERT, Bomb Squad, and CNT responded to assist in resolving the incident. The Bomb Squad was only able to partially breach the side door of the garage with a bomb disposal robot. SERT breached a window and deployed chemical agents into the garage. The suspect ultimately exited the garage without incident and was arrested.</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/15/23 - No policy violations (JP 2108)
3	10/19/2023	Suspected Improvised Explosive Device (IED) Mitigation	Milpitas PD	Milpitas PD responded to a reported suspicious device that appeared to be a vest with a phone and a timer attached. The item was located in an apartment complex trash receptacle across from the Great Mall. A bomb disposal robot was deployed for observation and device mitigation. It was determined to be non-explosive.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/19/23 - No policy violations (JP 2108)

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

Unmanned Aerial Systems (UAS)

Inventory / Use Reporting

The Sheriff's Office is currently solidifying the funding for the unmanned aerial systems prior to procurement and therefore does not have any reportable uses for this reporting period.

Intended Acquisition in 2024

Equipment Type	Quantity
Skydio X10	8
Brinc Lemur 2	2

Tactical Micro-Robot

Requested Acquisition for 2024

Equipment Type	Cost Per Unit	Quantity Sought
Recon Robotics Throwbot 2	\$51,000	3

Description, Justification, and Funding Source

The Recon Robotics Throwbot 2 is a handheld robot that can be thrown into hazardous situations to provide SERT operators to quickly make informed decisions in dynamic, rapidly evolving incidents. This micro-robot is designed to be able to crawl over a variety of terrain, clearing obstacles up to 2" tall. The robot can be directed to move through a structure and transmit real time video and audio to the operator. These reconnaissance features can locate and identify subjects, confirm presence of hostages, or reveal the room layout. It is critical to gather as much information as possible in high-risk or critical incidents to provide the best chance at sound decision making and leverage all resources in hopes of resolving the incident peacefully. It is the position of the Sheriff's Office that this piece of equipment is reasonably cost effective and there are no other reasonable alternatives to this equipment as bomb disposal robots are not as agile or functional as tactical micro-robots and reconnaissance is not the primary function of that equipment. The Sheriff's Office plans to have the equipment donated by the Sheriff's Advisory Board (SAB) or absorb the cost in the department's annual budget allocation.

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

Total Annual Cost

The estimated annual maintenance costs for all equipment in this category would be approximately \$1000-2000 for replacement parts.

				and armored Suburban to conduct the search warrant. The vehicles were used to provide cover for the arrest and entry teams. The two primary suspects on the warrant were detained without incident and items of evidence were gathered from the scene including shotgun and handgun ammunition.	phone call about this use.	(JP 2108)
4	5/30/2023	Subject Armed with a Handgun	N/A	Patrol deputies located a subject asleep in a vehicle with a revolver in his hand. The vehicle was parked behind a public shopping center. The armored Suburban was used to approach the vehicle and call the subject out of the vehicle. The subject complied and exited his vehicle. Deputies determined the revolver was an altered replica. The subject was arrested for the imitation firearm and a probation violation.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/10/23 - No policy violations (JP 2108)
5	6/1/2023	Search Warrant/ Arrest Warrant	Gilroy/ Morgan Hill PD	Gilroy PD responded to a hit-and-run incident where the suspect refused to stop so the victim followed the suspect. When the suspect vehicle pulled over, the driver presented a handgun and fired multiple rounds at the victim. Gilroy PD obtained an attempted murder arrest warrant and served the warrant using protection from the ARV.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/10/23 - No policy violations (JP 2108)
6	6/23/2023	Search Warrant/ Arrest Warrant	N/A	SERT utilized the ARV and the armored Suburban to serve a search warrant for a suspect who had an arrest warrant issued for firearms violations. The suspect also had a violent history and made threats about killing law enforcement officers. Deputies safely executed the search warrant and located several handguns, rifles, shotguns, and narcotics.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/10/23 - No policy violations (JP 2108)

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

7	6/25/2023	Subject Armed with a Handgun	N/A	Patrol deputies were dispatched to an intoxicated subject who showed a handgun to his child's mother. The mother and child safely exited the residence. Deputies located the male asleep in his truck. The armored Suburban was used to approach the truck and give the subject commands to comply and surrender. The subject exited the truck without incident and a BB gun was located inside the residence. The male was placed on a mental health evaluation hold.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/10/23 - No policy violations (JP 2108)
8	7/2/2023	Subject Armed with a Handgun and Knives	N/A	Patrol deputies were dispatched to a family disturbance with a male family member in possession of a handgun and knives. The armored Suburban was placed in front of the residence to provide cover. Upon further investigation deputies determined no crimes were committed and patrol cleared the scene.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/10/23 - No policy violations (JP 2108)
9	7/12/2023	Possible Stabbing	N/A	Patrol deputies were dispatched to the report of a daughter who stabbed her mother. The armored Suburban was requested to provide cover for approaching deputies. Upon further investigation deputies determined a stabbing did not occur and the female was placed on a mental health evaluation hold.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/10/23 - No policy violations (JP 2108)
10	7/13/2023	High Risk Search Warrant	Gilroy/Morgan Hill PD	Gilroy PD investigated a parolee who was in possession of multiple firearms. Gilroy PD served a search warrant at the residence and arrested the primary suspect with the assistance of the ARV. Gilroy PD located and collected numerous firearms from the residence.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/24/23 - No policy violations (JP 2108)
11	7/21/2023	Search Warrant	Gilroy PD/	Gilroy PD and Morgan Hill PD served a search warrant at a location where two robbery suspects were believed to be living. The suspects committed a	There have been no complaints via Internal Affairs,	Audit on 10/24/23 -

			Morgan Hill PD	robbery two days prior and brandished an AR-15 at the victim while threatening to take his car. The suspects did not take the car, but they took the victim's watch and wallet. Detectives were able to locate the suspect vehicle and identify one of the suspects, who was staying at a local hotel. That suspect was on parole for assault with a deadly weapon, possession of a firearm, possession of a stolen vehicle, and other crimes. Morgan Hill PD and Gilroy PD SWAT apprehended the suspect without incident.	email, written mail, or phone call about this use.	No policy violations (JP 2108)
12	7/22/2023	Weapons Call	N/A	Deputies responded to a report of a family disturbance where the suspect made threats towards his wife, was allegedly in possession of a firearm, and stole his wife's vehicle. Deputies located the vehicle in a 7-11 parking lot. The suspect was non-compliant with demands to surrender. Knowing the suspect was possibly in possession of a shotgun, deputies utilized the ARV to prevent the suspect vehicle's movement and to provide ballistic protection for deputies as they negotiated a surrender. The suspect eventually complied and was taken into custody. Deputies located the shotgun in question in the trunk of the vehicle.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/24/23 - No policy violations (JP 2108)
13	8/16/2023	SJPD Officer Shot	San Jose PD	San Jose PD responded to a domestic violence incident. An officer was shot by the suspect upon approach to the residence. The suspect went into his residence and barricaded with his wife, who was a possible hostage. San Jose PD requested the Sheriff's Office ARV and a Quick Response Force. As San Jose PD MERGE attempted to breach the door, the suspect shot towards officers. Eventually the wife exited the	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/24/23 - No policy violations (JP 2108)

				residence with her hands up and a firearm in her back pocket. The suspect jumped from the 2nd floor balcony and a San Jose PD K-9 was deployed. San Jose PD MERGE took the suspect into custody.		
14	8/31/2023	High Risk Search Warrant	Gilroy PD/ Morgan Hill PD	An armed suspect committed a robbery of a cannabis delivery driver and stole over \$4,500 in cannabis. Morgan Hill PD obtained the license plate of the suspect vehicle and was able to locate the suspect's residence. The primary suspect had prior arrests for sexual assault, rape, possession of weapons, criminal threats, and battery. Using the ARV, Gilroy PD conducted a surround and call-out and the suspect was arrested without incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/24/23 - No policy violations (JP 2108)
15	10/4/2023	Domestic Violence/ Barricaded Suspect	N/A	Sheriff's Office personnel were dispatched to a domestic violence and false imprisonment incident. The victim and her daughter escaped from the suspect and called 911. The suspect barricaded himself in the residence and fortified the front door with an electric fence/wire. SERT responded with the armored Suburban and ARV. Flash bangs were deployed as part of the operation in order to gain the suspect's compliance. SERT breached the door with the ram on the ARV. SERT deployed chemical agents into the garage and the subject immediately exited the residence and surrendered without incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/24/23 - No policy violations (JP 2108)
16	10/15/2023	Domestic Violence/ ADW Incident	N/A	Deputies responded to an assault with a deadly weapon, domestic violence, and criminal threats incident. The victim escaped from the suspect, who had threatened her with a knife. The suspect barricaded himself in the attached garage. SERT responded with the ARV and armored Suburban. 				SERT breached a window and deployed gas into the garage. The suspect exited the side door of the garage and was arrested.	phone call about this use.	
17	10/16/2023	Aid to Sunnyvale DPS for Homicide Suspect	Sunnyvale DPS	Sunnyvale DPS responded to a homicide in their jurisdiction. The firearm used in the homicide was a 45-caliber handgun. The suspect fled and Sunnyvale DPS located the vehicle that resulted in a vehicle pursuit. Sunnyvale DPS lost the vehicle, but Sheriff's Office deputies ended up locating it and initiated their own pursuit. The suspect crashed and remained in the disabled vehicle. Deputies requested the ARV, which started to respond, but was eventually cancelled because of its inability to get up the steep and narrow road where the suspect's vehicle was stranded. The suspect ended up committing suicide.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/16/23 - No policy violations (JP 2108)
18	11/1/2023	Search Warrant/ Arrest Warrant	San Jose PD	San Jose PD obtained a search warrant and arrest warrant for a subject involved with narcotic sales and weapons possession. San Jose PD MERGE requested the Sheriff's Office ARV along with a driver and driver assist. A surround and call-out was initiated and all the residents exited the residence peacefully. The suspect was arrested without incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 11/2/23 - No policy violations (JP 2108)
19	11/27/2023	Attempted Burglary with a Handgun	N/A	Sheriff's Office personnel were dispatched to a prowler who was holding a handgun and attempted to enter a residence occupied by a family. The suspect entered the back yard, exited the yard, and then entered the neighbor's back yard. The neighbor's house was occupied by an elderly female. The prowler was seen by San Jose PD Air 3 in the yard holding the handgun in a shooting stance. SERT responded and positioned the ARV and armored Suburban in front of	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 11/27/23 - No policy violations (JP 2108)

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

				the house as cover. Multiple call-out attempts were made, and the prowler eventually exited the yard and surrendered. The handgun was recovered in the yard.		
20	12/11/2023	Search Warrant	District Attorney Bureau of Investigation	The District Attorney's Office investigated a gun trafficking organization. They obtained an arrest warrant for a suspect associated to the organization. SERT served the high-risk search warrant using the ARV and armored Suburban. The occupants of the residence exited peacefully and the suspect was apprehended.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 12/19/23 - No policy violations (JP 2108)
21	12/19/2023	High Risk Search Warrant/ Arrest Warrant	N/A	The Sheriff's Office Homicide unit investigated a homicide that occurred in unincorporated San Jose and a suspect was identified. Detectives obtained an arrest warrant for homicide charges along with a search warrant of the suspect's residence. The ARV and armored Suburban were used during the execution of the search warrant. The subject exited the apartment and was arrested without incident. A female refused to exit so the window was breached and a flashbang was deployed. The female exited and detained without incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 12/19/23 - No policy violations (JP 2108)
22	12/20/2023	Weapons disturbance	N/A	Patrol responded to a disturbance between two tenants at a property. One of the tenants had access to a firearm and threatened to kill the other tenant. Once patrol arrived, the tenant exited the garage and pointed a firearm to his head. The armored Suburban was deployed to provide cover to patrol personnel. The tenant discharged the firearm under his chin and was pronounced deceased at the scene.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 12/20/23 - No policy violations (JP 2108)

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

23	12/22/2023	Burglary/ False Imprisonment	N/A	The armored Suburban was requested to respond to an incident where a male was hiding in his basement. The male committed burglary, false imprisonment, vandalism, and other crimes two days prior and needed to be served with a restraining order. The basement door was breached and the male was arrested without incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 12/27/23 - No policy violations (JP 2108)
24	1/27/2024	Attempted Murder with a Firearm	N/A	The armored Suburban and ARV were requested to respond to a shooting on Mt. Madonna Road. The incident involved a tenant who stood on his balcony and fired two shots at a process server in his vehicle. The armored Suburban and ARV were used to safely evacuate residents from four nearby houses. The suspect fled into Mt. Madonna County Park when the armored Suburban and ARV entered his property.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 1/27/24 - No policy violations (JP 2108)
25	2/1/2024	Search Warrant	N/A	The suspect from the shooting incident on 1/27/2024 was arrested away from his residence. A Search Warrant was obtained to search his residence. Prior to the search, the suspect's sister reported there were "dynamite caps" at the residence. Due to the suspect's previous actions and the report from the suspect's sister, the armored Suburban and ARV were used to enter and search the property.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 2/01/24 - No policy violations (JP 2108)
26	3/3/2024	High Risk Search Warrant	Gilroy PD	Gilroy PD requested the ARV to assist with a high-risk search warrant for a firearms investigation. The residents exited the house without incident. A stolen handgun, a rifle, and an imitation handgun were located inside the residence.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 3/3/24 - No policy violations (JP 2108)

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

Requested Acquisition in 2024

Equipment Type	Cost Per Unit	Quantity Sought
Armored GMC Yukon, Chevrolet Suburban, or Ford F350	\$250,000	1

Description, Justification, and Funding Source

The Sheriff's Office is requesting approval to replace the 26-year-old armored Chevrolet Suburban because it continues to experience some mechanical and maintenance issues. On critical incidents where there is a substantial threat of violence, the vehicle provides the ballistic protection necessary to afford Sheriff's Office staff time to leverage all resources available in an effort to gain voluntary compliance and resolve an incident using the least force possible. This unmarked armored vehicle model is subject to manufacturer availability. The resource is still vitally necessary in affording Sheriff's Office staff the ability to work through critical incidents and leverage all resources in hopes of resolving the incident peacefully. It is the position of the Sheriff's Office that this piece of equipment is reasonably cost effective and there are no other reasonable alternatives to this equipment. The Sheriff's Office plans to have the equipment donated by the Sheriff's Advisory Board (SAB) or absorb the cost in the department's annual budget allocation.

Equipment Type	Cost Per Unit	Quantity Sought
Lenco BearCat G3	\$450,000	1

Description, Justification, and Funding Source

While the use of ARVs is judicious, the Sheriff's Office also has implemented safeguards in policy to ensure our standards for use. With that said, there have been a number of critical incidents where the Sheriff's Office has also needed the assistance of ARVs from neighboring law enforcement agencies due to tactical considerations. While we are grateful for the strong partnerships we enjoy with our local law enforcement partners, the Sheriff's Office loses some level of control over assets when they are not controlled by our personnel. In order to be more self-sufficient, the Sheriff's Office is requesting approval for one additional Lenco BearCat G3. By authorizing this equipment, our communities can enjoy the security of knowing the Sheriff's Office can safely respond to critical incidents with the military equipment being operated by our staff under the guidance of our policy. It is the position of the Sheriff's Office that this piece of equipment is reasonably cost effective and there are no other reasonable alternatives to this equipment. The Sheriff's Office plans to seek grant funding opportunities or absorb the cost in the department's annual budget allocation.

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

Total Annual Cost

The current Lenco Bearcat had maintenance and tire replacement costs of approximately \$8,000 during this reporting period. The Chevrolet Suburban had approximately \$2,000 in maintenance costs during this reporting period.

CATEGORY 4 – TRACKED ARMORED VEHICLES:

Intended Acquisition in 2024

Equipment Type	Cost Per Unit	Quantity Sought
The Rook Armored Critical Incident Vehicle by Ring Power	\$450,000	1
Description, Justification, and Funding Source		
<p>The Sheriff's Office is requesting approval to proceed with the procurement of a Rook by Ring Power. The Rook is a custom armored critical incident vehicle built on a Caterpillar (CAT®) compact track loader chassis. The Rook resembles a mini tractor with extendable arms in the front several attachment options. The purpose of the Rook is to provide ballistic protection for community members and deputies alike during high-risk critical incidents and operations. The Rook is not a tank and is not weaponized. Additionally, the Rook's tracked system allows for use in tight spaces and soft ground. The Sheriff's Office is committed to judicious, transparent use of this equipment and has established safeguards such as a policy specific to this piece of equipment is in the process of being finalized. With that said, there have been several critical incidents where the Sheriff's Office staff could have benefitted from availability of a Rook to deliver essential equipment and supplies to a critically dangerous location or deploy less or non-lethal force options to effectively resolve such volatile incidents. It is the position of the Sheriff's Office that this piece of equipment is reasonably cost effective and there are no other reasonable alternatives to this equipment. The Sheriff's Office has been awarded funding for this purchase through the Urban Area Security Initiative (UASI) Grant Funding for Fiscal Year 2024 with no purchase cost to the County.</p>

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

Use Reporting

The items within Category 12 in the course of law enforcement duties were eight (8) uses of diversionary devices and two (2) incidents where chemical agents were deployed during the course of SERT operations as documented below. All other uses of the items in this category have only been for training.

Diversionary Devices

Use Number	Date	Incident Type	Use Summary	Complaints? If yes, add summary	Use & Policy Audit (action taken if any)
1-4	10/4/2023	Domestic Violence Barricaded Suspect	Sheriff's Office personnel were dispatched to a domestic violence and false imprisonment incident. The victim and her daughter escaped from the suspect and called 911. The suspect barricaded himself at the residence and fortified the front door with an electric fence/wire. SERT responded with the armored Suburban and ARV. Four (4) flash bangs were deployed as part of the operation in an effort to gain voluntary compliance. SERT breached the door with the ram on the ARV. SERT deployed chemical agents into the garage in continued efforts to gain voluntary compliance. The subject immediately exited the residence and surrendered without incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/4/23 - No policy violations (JP 2108)
5-6	10/15/2023	Domestic Violence / ADW Incident	Deputies responded to an assault with a deadly weapon, domestic violence, and criminal threats incident. The victim escaped from the suspect, who had threatened her with a knife. The suspect barricaded himself in the attached garage of the residence. SERT responded to resolve the incident. SERT breached a window and deployed two (2) flash bangs in an effort to gain voluntary compliance to no avail. Chemical	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 10/15/23 - No policy violations (JP 2108)

			agents were then deployed into the garage. The suspect exited the side door of the garage and was arrested.		
7	12/19/2023	High Risk Search Warrant	The Sheriff's Office Homicide unit investigated a homicide that occurred in unincorporated San Jose and a suspect was identified. Detectives obtained an arrest warrant for homicide charges along with a search warrant of the suspect's residence. SERT was activated to effect the arrest warrant and the subject exited the apartment peacefully. A female residence refused to exit and the firearm used in the homicide was still not recovered, so the window was breached and a flashbang was deployed in an attempt to gain voluntary compliance. The female then exited without incident.	A complaint about flashbang use was made to Sheriff's Office Internal Affairs on 3/7/2024. The complaint is under investigation.	Audit on 12/19/23 - No policy violations (JP 2108)
8	1/27/2024	Attempted Murder with a Firearm	SERT respond to a shooting on Mt. Madonna Road. The incident involved a tenant who stood on his balcony and fired two shots at a process server in his vehicle. The armored Suburban and ARV were used to safely evacuate residents from four nearby houses. SERT used the ARV to approach the residence. A flash bang was deployed to gain compliance from the suspect who was considered armed and dangerous. The suspect fled from SERT into Mt. Madonna County Park. He was apprehended by Sheriff's Office personnel on 2/1/2024.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 1/27/24 - No policy violations (JP 2108)

Use Reporting

The only use of any items within Category 14 in the course of law enforcement duties was six (6) deployments of the 40mm less lethal launcher as documented below. All other uses of the items reported in this category have only been for training and/or mandated qualifications during this reporting period. The current quantities of items within this category are reflected in the inventory.

40mm Launcher

Use Number	Date	Incident Type	Use Summary	Complaints? If yes, add summary	Use & Policy Audit (action taken if any)
1	4/10/2023	Trespassing	Deputies were dispatched to the report of two subjects who refused to leave a shed at a private business. The subjects had a history trespassing and causing problems for the business. The subjects refused the owners request to leave. The owner believed the subject were in possession of knives. Deputies arrived and told the subjects to leave the property. Verbal commands and admonishments were given to the subjects, but they refused to leave the shed. Deputies deployed OC spray at the subjects, but it was ineffective. The male reached into the front of his waistband and turned his back towards the deputies. Due to imminent threat of great bodily injury or death, a deputy discharged one (1) 40mm foam munition at the male's buttocks. The male fell to the ground and both subjects were arrested.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 3/19/24 - No policy violations (JP 2108)

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

2	8/8/2023	Vandalism/ Attempted Home Invasion	Deputies were dispatched to a naked male destroying property with a baseball bat. The male's family believed he was having a mental health crisis. The male ignored deputies' commands and ran to a neighboring residence, which was occupied by a mother and her small children. The male attempted to enter the residence by throwing his body at the door. A deputy discharged one (1) 40mm foam munition at the male's leg. The male took a fighting stance and refused to comply with orders. OC spray was deployed, and the male fell to his knees and was handcuffed. The male was transported to the hospital and placed on a mental health evaluation hold.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 3/19/24 - No policy violations (JP 2108)
3-4	12/20/2023	Weapons Disturbance	Deputies responded to a disturbance between two tenants at a property. One of the tenants had access to a rifle and threatened to kill the other tenant. Once patrol arrived, the subject exited the garage and pointed a rifle to his head. The subject disregarded commands to surrender, discharged the rifle and fell to the ground. The subject was moving on the ground with the rifle was next to his body. Deputies were unsure if the subject was incapacitated as the rifle was still in reach, therefore, two (2) 40mm foam munitions were discharged at the subject. The subject did not react to being struck with the munitions. Deputies secured the rifle and started CPR. The subject was declared deceased at the scene.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 3/19/24 - No policy violations (JP 2108)
5	12/23/2023	Domestic Violence	Deputies responded to a domestic violence incident. The victim sustained two black eyes, cuts and bruising on her face, and bruising on her legs. A second victim was threatened by the suspect when he attempted to stop the suspect. The suspect barricaded himself in the victim's trailer. Deputies provided admonishments and verbal commands to the suspect. OC spray was used inside the	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 3/19/24 - No policy violations (JP 2108)

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

			trailer but was unsuccessful at gaining compliance. The suspect attempted to run out of the trailer and a deputy fired one (1) 40mm foam munition, which missed the suspect. The suspect was arrested without further incident.		
6	2/25/2024	Weapons Disturbance	Deputies responded to a female who entered the victim's rear yard carrying a kitchen knife. Deputies called the female on the phone and after three hours they convinced her to come to the front yard and throw the knife on the ground. Deputies gave the female admonishments and verbal commands, but she refused to comply and attempted to pick up the knife. A deputy discharged one (1) 40mm foam round that struck the female. The female was handcuffed, transported to the hospital, and placed on a mental health evaluation hold.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 3/19/24 - No policy violations (JP 2108)
7	3/9/2024	Warrant Arrest	A deputy conducted an enforcement stop on three males who were drinking alcohol on a VTA platform. One of the males did not have proof of fare and provided a false name. Deputies were able to identify the male and learned he had warrants for assault with a deadly weapon and a parole violation. The male stated he wanted to die and asked deputies to shoot him. After 40 minutes of de-escalation deputies attempted to arrest the male. They deployed OC spray and the male charged at the deputies. A deputy fired one (1) 40mm foam munition that struck the male in the leg. The male was arrested and transported to the hospital for medical treatment. It was later discovered the male had a 6-inch knife in his sock.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this use.	Audit on 3/19/24 - No policy violations (JP 2108)

The Training and Professional Development Division hosted five (5) 4-hour POST-certified Less Lethal training courses for the 40mm less-lethal launchers and Sponge Baton (POST certification 2270-30995) in this reporting period. Qualifications are completed at least annually, as required by General Order 12.04 (Use of Less Lethal Munitions).

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

Requested Acquisition in 2024

Equipment Type	Cost Per Unit	Quantity Sought
PepperBall TAC SA PRO Plus + PepperBall Projectiles	\$99,600	40
Description, Justification, and Funding Source		
<p>The Sheriff's Office is requesting approval to expand the use of PepperBall launchers to patrol. The Sheriff's Office currently employs non-lethal PepperBall within our Custody Bureau and Specialized Teams and intends to expand the use to include trained deputies within our Enforcement Bureau. PepperBall is considered a best practice in law enforcement and is accepted as a force option in most neighboring agencies. It is particularly helpful in resolving situations where chemical agents may be effective, but it is too dangerous for deputies to close the distance. The deployment of the PepperBall Launcher is ideally suited for coordinated and pre-planned uses of force, particularly effective in scenarios such as a barricaded suspect. This acquisition aims to standardize less and non-lethal tools across our office. The office's policies and training exceed industry standards, fully complying with AB-48. All authorized staff will attend a 4-hour POST-certified course and qualify annually, which will include a review of the policy and tested scenarios. The office intends to acquire 40 launchers for this initiative at approximately \$1,070 per launcher. It is the position of the Sheriff's Office that this piece of equipment is reasonably cost effective and provides alternative lower force options to resolve situations. The Sheriff's Office plans to absorb the cost in the department's annual budget allocation.</p>		

Total Annual Cost

There have been no replenishment costs for this category during this reporting period.

				or phone call about this MK-9 use.	the use of force during this incident.
2	4/17/2023	Emergency Response Team Activation/Cell Extraction	The Emergency Response Team (ERT) was activated due to an incarcerated person's failure to lockdown which prevented welfare checks of other incarcerated persons in the housing unit and delayed jail operations. Despite many de-escalation efforts, this individual did not comply with orders and used a plastic garbage bag to shield the MK-9 deployment from ERT. Once ERT made entry into the dorm, this individual charged at ERT before another burst of MK-9 was deployed. This individual used the same plastic trash bag to deflect the spray and retreated to their cell without further incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
3	4/19/2023	Multiple Incarcerated Person Assault	<p>During recreational programming, one incarcerated person approached another incarcerated person from behind and without provocation punched them in the face. The initial assault stemmed other assaults in the dorm as multiple individuals began fighting each other.</p> <p>The MK-4 was deployed by the deputy which was ineffective due to multiple incidents occurring at the same time. All involved individuals ignored directives and continued fighting even when the MK-9 was deployed as individuals split into smaller groups and continued to fight each other. Additional staff responded, isolated each group and deployed their MK-9 towards all combatants. Once sufficient staff were on scene and chemical agents were allowed to take effect, the majority of the involved individuals stopped fighting, but some continued to challenge staff and would not fully comply with directives. Multiple incarcerated persons needed to</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

			be physically restrained and escorted out of the dorm to prevent a larger scale event.		
4	5/1/2023	Multiple Incarcerated Person Assault	During recreational programming, multiple incarcerated persons were involved in an assault. Due to the number of incarcerated persons already actively engaged in the assault, a deputy used an MK-9 to effectively stop the assault from continuing and deterring other nearby individuals from joining the fight.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
5	5/14/2023	Stop Destruction of Property	An incarcerated person became destructive during recreational program time and tried to break the television inside the housing unit. Due to the setting of the housing unit, a deputy provided multiple directives and warnings for the individual to stop their actions through the tray slot door, but the incarcerated person disregarded the lawful order and continued the destruction of property. The deputy deployed their MK-9 through the tray slot and the individual returned to their cell without further incident. It was determined that the chemical agent never contacted the incarcerated person but was effective in discontinuing the crime from occurring.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
6	5/15/2023	Multiple Incarcerated Person Assault	During recreational programming, two incarcerated persons were involved in a physical altercation. Deputies intervened by issuing orders and directives to cease the altercation, but these were ignored. Subsequently, deputies deployed the MK-9 at the involved individuals, which allowed staff to separate them and bring the incident under control.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

					during this incident.
7	5/18/2023	Multiple Incarcerated Person Assault	<p>During recreational programming, two incarcerated persons attacked another incarcerated person. A deputy deployed his MK-4 at the individuals fighting to no avail. Verbal directives and the MK-4 deployment were ineffective, so the deputy deployed the MK-9 at all the active participants. Additional staff responded to the incident and were able to assist with safely securing the incarcerated persons without further incident.</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
8	5/18/2023	Multiple Incarcerated Person Assault	<p>Deputies on-viewed several inmates engaged in a verbal altercation. A physical altercation quickly ensued involving approximately 15 individuals. Multiple directives to stop fighting were ignored. An MK-9 was applied to the facial area of the individuals fighting. The incarcerated persons involved continued to fight each other. To prevent further injury from occurring, deputies deployed a MK-46. All the individuals stopped fighting and began to comply with directives by laying on the ground and safely surrendering to restraints.</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 or MK-46 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
9	5/22/2023	Multiple Incarcerated Person Assault	<p>During pill-call, an incarcerated person entered another incarcerated person's cell and attacked them. Two additional individuals entered the cell and attacked the aggressor. Verbal directives were partially successful as two individuals stopped fighting, but the others refused to comply and continued assaulting each other. The deputy deployed an MK-9 at the active participants, which proved to be successful as both they stopped fighting and complied with verbal directives.</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

10	6/5/2023	Multiple Incarcerated Person Assault	<p>Two incarcerated individuals assaulted another incarcerated person during recreational programming. The deputy's verbal directives to stop fighting were unsuccessful and the victim did not fight back against the suspects. The deputy deployed their MK-9 at the aggressors to prevent additional kicks to the victim's torso and head. The chemical agent successfully stopped the assault on the defenseless victim and the potential for serious bodily injury from occurring.</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
11	6/5/2023	Multiple Incarcerated Person Assault	<p>During clothing exchange, multiple incarcerated persons assaulted another individual, and others joined their efforts. Deputy gave commands to all involved to cease fighting, but verbal directives were ignored. MK-9 was utilized in an attempt to bring the incident under control. Both victims and suspects continued to fight despite multiple deployments of chemical agents. Once sufficient staff responded to the incident, deputies had to physically separate all the incarcerated persons from each other.</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	Pursuant to a UOF audit, corrective action was given for MK-9 usage at closer than the manufacturer's recommended range.
12	6/6/2023	Emergency Response Team Activation/Cell Extraction	<p>While deputies were serving breakfast, an incarcerated person took a plastic food tray into their cell. Deputies gave verbal directives to return the food tray but were unsuccessful. The individual eventually broke the plastic food tray into pieces and held the makeshift weapons in their hands. The incarcerated person also attempted to break his medical walker to fashion another weapon. Despite many de-escalation efforts, the Emergency Response Team (ERT) was activated and administered two deployments of MK-9 Cell Buster with less than substantial effectiveness. The individual adamantly</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 Cell Buster use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

			refused to comply. ERT eventually entered the cell and secured the incarcerated person without further incident.		
13	6/6/2023	Emergency Response Team Activation/ Extraction	During recreational programming, multiple incarcerated persons refused to lockdown. The individuals started moving the dorm's furniture and blocking entry ways which prevented responding staff from entering the housing unit. The active participants also placed apples in their socks to fashion swinging weapons to use against staff. To prevent injuries to both staff and the aggressors alike, the MK-9 Phantom Fogger was deployed. After several minutes, all involved individuals retreated back to their cells and locked down without further incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 Phantom Fogger use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
14	6/15/2023	Mental Health Needs / P.C. 2603	Emergency psychiatric medication was ordered by a clinician pursuant to P.C. 2603, and after many attempts by badge and civilian staff for the individual to comply, the incarcerated person became increasingly hostile and ignored all directives. The Emergency Response Team (ERT) was activated and continued de-escalation efforts for voluntary compliance but was unsuccessful. ERT administered two MK-9 Phantom Fogger deployments to no avail. The individual continued to refuse orders to comply and ERT eventually entered the cell and placed the individual into restraints without further incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 Phantom Fogger use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
15	6/15/2023	Multiple Incarcerated Person Assault	Two incarcerated individuals assaulted another incarcerated person during recreational programming. The deputy's verbal directives to stop fighting were unsuccessful before an MK-9 was deployed at the aggressors. The assault was stopped due to the deployment of chemical agents, causing all involved	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use. 			parties to cease fighting and lie on the ground without further incident.		during this incident.
16	6/24/2023	Multiple Incarcerated Person Assault	<p>During recreational programming, two incarcerated persons attacked another incarcerated person. The victim did not fight back and covered his head with his hands. Verbal directives to stop fighting were unsuccessful. MK-9 was deployed to the facial area of the aggressors. All the individuals involved separated and followed verbal directives to get on the floor.</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
17	6/26/2023	Failure to Lockdown or Exit/Enter a Dorm/Cell	<p>During recreational programming, an incarcerated person was asked to lockdown so staff could conduct a welfare check in the housing unit. The individual refused to lockdown and became hostile towards staff, smearing food on the dorm's windows which caused staff to lose visibility of the housing unit and swinging a garbage bag like a weapon. When the incarcerated person got closer to the door in an attempt throw water underneath the entryway, the deputy took the opportunity and deployed the MK-9 which proved to be effective as the incarcerated person locked down without further incident.</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
18	7/10/2023	Emergency Response Team Activation/Extraction	<p>After 72 hours of de-escalation efforts by staff and mental health clinicians, an incarcerated person continued to refuse orders to move from one special management unit (SMU) to another SMU for facility management. The Emergency Response Team (ERT) was activated and utilized the MK-9 Cell Buster which took effect immediately as the incarcerated person requested to be secured in handcuffs. The individual was</p>	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 Cell Buster use. Santa Clara County Sheriff's Office Annual Military Equipment Use Report

24	7/20/2023	Multiple Incarcerated Person Assault	During recreational programming, multiple incarcerated persons were involved in an assault on the outdoor sundeck. Initially, staff deployed MK-4 at the entrance to the sundeck but was unsuccessful due to the number of incarcerated persons involved and the distance of the assault. Subsequently, an MK-9 was utilized, but also proved unsuccessful. The open outdoor area introduced winds that redirected the chemical agents away from the assailants. Once additional staff responded, they opened the door to sundeck and all involved parties complied by laying on the ground without further incident.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
25	7/24/2023	Stop Destruction of property	During recreational programming, an incarcerated person was taking a shower. Deputies notified the individual that his recreational time has ended and he would need to return to his cell. The individual ignored all the directives. After a few minutes, the deputies turned off the water. The individual exited the shower and became hostile. Attempting to de-escalate the situation, the deputies agreed to turn the water back on, in order for the individual to rinse off. After approximately 8 minutes, the deputies turned off the water. The individual exited the shower and became hostile again. The individual stated that he would break the hot pot and walked towards it. One deployment of MK-9 was utilized and deterred the individual from moving closer. The supervisor on scene agreed to turn the water back on to decontaminate from the chemical agents. The water was turned off for a final time and after several minutes the individual returned to their cell.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.

Santa Clara County Sheriff's Office Annual Military Equipment Use Report

26	7/27/2023	Multiple Incarcerated Person Assault	During bible study, three incarcerated persons attacked another incarcerated person in the multi-purpose room. Two civilian chaplains were in the multi-purpose room at the time of the attack. Verbal directives to stop fighting were ignored. MK-9 Phantom Fogger was deployed to the individuals fighting. Two of the individuals stopped fighting and complied with verbal directives. A second deployment of MK-9 Phantom Fogger was utilized, and the remaining two incarcerated persons separated. The chemical agents were effective in stopping the assault and deterring others from joining the fight.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 Phantom Fogger use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
27	7/29/2023	Multiple Incarcerated Person Assault	During clothing exchange, two incarcerated persons assaulted another incarcerated individual. The deputy gave commands to all involved to cease fighting, but verbal directives were ignored. MK-9 was utilized in an attempt to bring the incident under control. The victim and suspects continued to fight despite multiple deployments of chemical agents. One individual needed to be physically restrained to stop fighting.	There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.	There were no policy violations observed as it relates to the equipment use or the use of force during this incident.
28	8/4/2023	Multiple Incarcerated Person Assault	During recreational programming, two incarcerated persons started fighting each other. Multiple verbal directives to stop fighting were ignored. A deputy deployed his MK-9. The chemical agents were successful as both incarcerated persons stopped fighting and deterred others from joining the fight. 			<p>incarcerated person decontaminated himself with soap and water, while still refusing to go back to his cell. A second deployment of MK-9 was utilized, however the MK-9 malfunctioned, and no chemical agents made contact with the individual. Several deputies entered the module and directed the incarcerated person to return to his cell. The individual took a combative posture and challenged staff. A third deployment of MK-9 was utilized to the facial area of the incarcerated person, and he returned to his cell without further incident.</p>		<p>during this incident.</p>
54	2/5/2024	Multiple Incarcerated Person Assault	<p>During recreational programming, an incarcerated person approached another incarcerated person and struck them in the head with a closed fist. In an attempt to help the victim, two additional incarcerated persons engaged in the fight. The responding deputy directed all the individuals to stop fighting and one of the individuals complied. They separated themselves from the fight and returned to their cell. An MK-9 was deployed to the facial area of all the remaining combatants as individuals continued to fight in a collaborative effort against the original assailant. Responding staff had to physically restrain the remaining individuals to keep them from fighting each other.</p>	<p>There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.</p>	<p>There were no policy violations observed as it relates to the equipment use or the use of force during this incident.</p>
55	2/8/2024	Emergency Response Team Activation/ Extraction	<p>During recreational programming, an incarcerated person was displaying erratic behavior by jumping around the dorm. The individual went to the sundeck and refused to return to his cell. The incarcerated person made statements that he would fight staff and began shadow boxing. Despite many de-escalation efforts by Mental Health Staff, Multi-support Deputies, and supervisors, the individual became more agitated, punching the</p>	<p>There have been no complaints via Internal Affairs, email, written mail, or phone call about this MK-9 use.</p>	<p>There were no policy violations observed as it relates to the equipment use or the use of force during this incident.</p>
